SUMMARY

As a passionate and motivated software developer with a strong foundation in programming languages, e.g., Python, C++, Javascript,React . I am pursuing my Bachelor's in Computer Science . I enjoy problems solving and continuously eager to contribute to a dynamic team where I can learn and grow as a developer while building innovative solutions

PROJECTS

Women Safety Website

- Developed a web platform to enhance women's safety with features like SOS alerts, real-time location sharing, and emergency contacts.
- Implemented secure user authentication and a database for storing emergency contacts and reports.

3D Anime Website

Marketing Manager & Specialist

- Designed a dynamic UI/UX with smooth animations and responsive layouts.
- Integrated character models, scenes, and effects for a realistic experience.
- Optimized loading performance for seamless rendering across devices.
- Implemented user interactions like camera controls and animated elements.

Game Store

- Developed an interactive game website with engaging gameplay and responsive UI.
- Designed and implemented game mechanics, animations, and user interactions.
- Utilized JavaScript game engines for smooth performance
